Event Information:

Thank you for your reservation for the First Gigayear(s) conference! We look forward to seeing you in Hilo from the 30th of September to the 3rd of October 2024. A small welcome reception will be held on the evening of Sunday 29th of October. Further details will be provided at a later stage.

Hilo is located about 20 degrees north of the equator, so the sun can be intense. We suggest you bring a hat, sunglasses, and coral reef-safe sunscreen. Also, be aware that Hilo is one of the wettest cities in the U.S., with an average annual rainfall of about 130 inches. We recommend packing rain boots or footwear that you don't mind getting muddy or wet, along with a light jacket. The temperature rarely drops below 70 degrees Fahrenheit.

The conference location is approximately 1.5 miles from the city center and is accessible via public transportation with an hourly bus.

For other questions regarding the meeting, please email FirstGyrs2024@noirlab.edu
